ADMINISTRATIVE COMPLAINT

Comes now the Alabama State Board of Medical Examiners and submits herein its sworn petition, pursuant to the authority of §34-24-361(e), Code of Alabama 1975, and respectfully represents to the Medical Licensure Commission of Alabama as follows:

1. On the 24th day of August, 1987, the Respondent, Michael John McManus, M.D., was duly issued a license to practice medicine in the State of Alabama, license #13633;

2. The Alabama State Board of Medical Examiners has caused an investigation to be made into the medical practice of the Respondent, Michael John McManus, M.D. Based upon information developed during the course of its investigation, the Board has determined that there exists probable cause to believe that the Respondent, Michael John McManus, M.D. has violated the following provisions of §34-24-360, Code of Alabama 1975;

a. Being unable to practice medicine with reasonable skill and safety to patients by reason of illness or as a result of any mental or physical condition, a violation of §34-24-360(19), Code of Alabama 1975.

3. In support of the allegation of the violation of §34-24-360(19), the Board of Medical Examiners specifically alleges that

the Board has received information from the Physicians Recovery Network of the Medical Association of the State of Alabama that, from April 4, 1993 until April 8, 1993, the Respondent entered a treatment program, approved by the Physicians Recovery Network, for a comprehensive assessment. According to the treatment facility, the Respondent has an occupational problem due, possibly, to an organic mental disorder, and further assessment and evaluation, including more specific neuropsychological testing and complete neurological assessment, should be completed before Respondent resumes the practice of medicine. The Physicians Recovery Network has concluded that the Respondent should not practice medicine pending continued evaluation at an approved treatment facility. On information and belief, the Board alleges that the Respondent has not entered or re-entered an approved treatment facility for further assessment and evaluation.

4. The Board of Medical Examiners charges that the Respondent, Michael John McManus, M.D., is currently impaired by reason of illness or as the result of a mental or physical condition and, by virtue of such impairment, is unable to practice medicine with reasonable skill and safety to patients.

5. The Board of Medical Examiners hereby finds and certifies to the Medical Licensure Commission that the Board has in its possession evidence that the Respondent is presently suffering from a mental or physical condition to the extent that his continuation in practice constitutes an immediate danger to his patients and to the public.

Wherefore the foregoing premises considered, the Alabama State Board of Medical Examiners respectfully requests that the Medical Licensure Commission of Alabama, pursuant to its authority under §34-24-361(f), Code of Alabama 1975 and §41-22-19(d), Code of Alabama 1975 immediately suspend the license to practice medicine of Michael John McManus, M.D., without a hearing, and order that Michael John McManus, M.D. immediately cease and desist from the practice of medicine in the State of Alabama and surrender to the Medical Licensure Commission or a designated agent his license to practice medicine, his Alabama controlled substances registration certificate, and any inventory of controlled substances which may be in the possession of the Respondent.

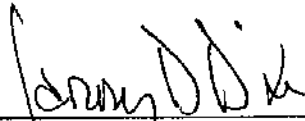

Further, the Board of Medical Examiners requests that the Medical Licensure Commission of Alabama enter an Order directing that the Respondent, Michael John McManus, M.D., complete further evaluation and assessment at a treatment program approved by the Physicians Recovery Network of the Medical Association of the State of Alabama.

The Board further requests that the Medical Licensure Commission set a hearing upon this Administrative Complaint, that the Commission order the Respondent, Michael John McManus, M.D., to appear and answer the allegations of this Administrative Complaint, and, at the conclusion of the hearing, that the Medical Licensure Commission suspend or revoke the license to practice medicine of the Respondent, impose an Administrative fine as authorized by §34-24-381, Code of Alabama 1975, and/or take such

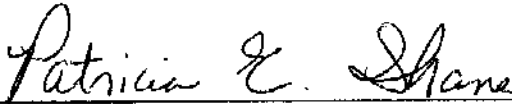

other actions as the Commission may deem appropriate based upon the evidence presented for consideration.

This Administrative Complaint is executed for and on behalf of the Alabama State Board of Medical Examiners by its Executive Director pursuant to the instructions of the Board as contained in its resolution of April 15, 1993, a copy of which is attached hereto and incorporated herein.

EXECUTED this 27th day of April, 1993.

Before me, the undersigned, personally appeared Larry D. Dixon, Executive Director of the Alabama State Board of Medical Examiners, who, being by me first duly sworn, deposes and says as follows:

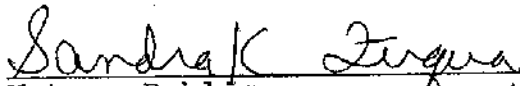

The Alabama State Board of Medical Examiners session on April 15, 1993, a quorum of the members of the Board being present, conducted an investigation into the medical practice of Michael John McManus, M.D., and at the conclusion of the discussion, the Board adopted the following resolution:

Michael J. McManus, M.D., Mobile. The Board received a report from the PRN concerning Dr. McManus' recent evaluation at a PRN approved treatment facility which concluded that Dr. McManus should not practice medicine pending further inpatient evaluation and assessment, including further neuropsychological evaluation and complete neurological evaluation, because of a possible organic mental disorder. The Credentials Committee recommended an Administrative Complaint for summary suspension be filed with the Medical Licensure Commission on the grounds that Dr. McManus is presently unable to practice medicine with reasonable skill and safety to patients by reason of illness or as a result of a mental or physical condition.

I further certify that the foregoing resolution was adopted by the Alabama State Board of Medical Examiners on the 15th day of April, 1993.
