Case Number 12-2002-134386

PUBLIC REPRIMAND

On June 17, 2003, the Medical Board of California filed an Accusation against your license to practice medicine. The Accusation charges you with violation of Business and Professions Code sections 2234(c) and/or 2266. The Accusation alleges that you were guilty of unprofessional conduct in medical record keeping. In one patient case, the Medical Board's expert opined that your records were inadequate. In addition, you transcribed the chart from the original process notes without indicating that the chart was a copy and without retaining the original notes.

In mitigation, the Medical Board recognizes that you have been a licensed California physician since 1990, without any prior disciplinary action.

For the reasons set forth above, it has been decided by the Division of Medical Quality of the Medical Board of California that a Public Reprimand shall be issued in this case.

WHEREFORE, pursuant to the authority of sections 495 and 2227 of the Business and Professions Code, the Division of Medical Quality of the Medical Board of California hereby issues a Public Reprimand in this matter, and understands from you conduct and representations that no further violations of the Business and Professions Code will occur.
