Under no circumstances shall a post office box serve as an address of record, except as allowed by Business and Professions Code section 2021(b).

Respondent shall not engage in the practice of medicine in Respondent's or patient's place of residence, unless the patient resides in a skilled nursing facility or other similar licensed facility.

#### License Renewal

Respondent shall maintain a current and renewed California physician's and surgeon's license.

#### Travel or Residence Outside California

Respondent shall immediately inform the Board or its designee, in writing, of travel to any areas outside the jurisdiction of California which lasts, or is contemplated to last, more than thirty (30) calendar days.

If Respondent resides in California and is considered to be in non-practice, Respondent shall comply with all terms and conditions of probation. All time spent in an intensive training program which has been approved by the Board or its designee shall not be considered non-practice and does not relieve Respondent from complying with all the terms and conditions of probation. If an Accusation, or Petition to Revoke Probation, or an Interim Suspension Order is filed against Respondent during probation, the Board shall have continuing jurisdiction until the matter is final, and the period of probation shall be extended until the matter is final.
- 15. <u>LICENSE SURRENDER</u>. Following the effective date of this Decision, if Respondent ceases practicing due to retirement or health reasons or is otherwise unable to satisfy the terms and conditions of probation, Respondent may request to surrender his or her license. The Board reserves the right to evaluate Respondent's request and to exercise its discretion in determining whether or not to grant the request, or to take any other action deemed appropriate and reasonable under the circumstances. Upon formal acceptance of the surrender, Respondent shall within 15 calendar days deliver Respondent's wallet and wall certificate to the Board or its designee and Respondent shall no longer practice medicine. Respondent will no longer be subject to the terms and conditions of probation. If Respondent re-applies for a medical license, the application shall be treated as a petition for reinstatement of a revoked certificate.
- 16. <u>PROBATION MONITORING COSTS</u>. Respondent shall pay the costs associated with probation monitoring each and every year of probation, as designated by the Board, which may be adjusted on an annual basis. Such costs shall be payable to the Medical Board of California and delivered to the Board or its designee no later than January 31 of each calendar year.

#### CAUSE FOR DISCIPLINE

#### (Mental Impairment)

- 8. Respondent Laurance Folkey Johnson, M.D. is subject to disciplinary action under Code sections 820 and 822 in that he suffers from a condition that makes him unsafe to practice medicine. The circumstances are as follows:
- A. The Board received a complaint from patient A. In about March 2016, patient A. made an appointment to see Respondent because she was experiencing anxiety and depression. She went to see him in Pasadena; there was no receptionist or anyone else in the office. Patient A. filled out paperwork but no vital signs were taken.
- B. During the session, Respondent asked patient A. questions about school and family, but he would interrupt her and tell her about women he dated, vacations with girlfriends and inappropriately told her about a woman he dated who would orgasm every time he kissed her.
- C. Respondent suggested that patient A. take Xanax, and when she asked if it was addicting, he said only for those with an addictive personality, so she declined. Respondent told patient A. she was attractive and suggested she come back to see him. She never did.
- D. Based on the complaint, Investigator F.M.G. asked for the records of patient A. from Respondent. The investigator called and spoke with Respondent on the phone, and he told her he had been treating patient A. for over 20 years; that was not true. They agreed to the date of March 14, 2017, for a subject interview. Later in the day Respondent called back and asked for the patient's name again. He called again on February 24, 2017, and asked for the patient's name yet again. On February 27, 2017, he asked Investigator F.M.G. for treatment dates because he could not find the patient's records.
- E. On February 28, 2017, Investigator F.M.G. received a phone message from Mr. K., stating he was Respondent's attorney and explaining that Respondent did not remember talking to the investigator about the interview.
- F. On March 3, 2017, Investigator F.M.G. spoke with Mr. K. The Respondent told his attorney he did not recall patient A., or ever treating her, and Respondent was confused about the subject interview since he did not remember agreeing to one. The investigator explained to Mr.

K. that she spoke with Respondent several times, and Respondent spoke to others in the office. Based on this behavior, Investigator F.M.G. was concerned about his mental status so she asked Mr. K. if Respondent would agree to a voluntary mental evaluation pursuant to Business and Professions Code section 820.

- G. Respondent agreed to the voluntary mental and physical evaluation. On June 3, 2017, Dr. B. performed a mental evaluation of Respondent. During Dr. B's evaluation, Respondent informed him that he did not remember treating patient A., although Respondent had spoken with the investigator and others in her office about this patient.
- H. As part of the evaluation, Dr. C., a psychologist, gave Respondent some neuropsychological tests. The findings were significant in that she found Respondent's performance in the areas of executive functioning, problem solving, and conceptual reasoning was far below average. She also found that the results of the testing were consistent with frontotemporal dementia and supported a finding of DSM-5 diagnosis for unspecified neurocognitive disorder.
- I. Dr. B.'s evaluation showed Respondent has dementia, and that there are significant deficits in his short and long- term memory. Dr. B. opined that Respondent is not competent to practice medicine due to evidence of anxiety, adjustment disorder and frontotemporal dementia, which includes significant memory impairment.
