

2. At the time of the incidents described herein, the Respondent was the medical director of the Mensana Clinic ("Mensana"), 1718 Greenspring Valley Road, Stevenson, Maryland 21153. The Mensana website describes its "world renowned reputation in the diagnosis and treatment of chronic pain" as follows: "Mensana Clinic is a multidisciplinary diagnostic and treatment facility for patients with chronic pain, such as low back pain, neck pain, limb pain, face pain, reflex sympathetic dystrophy, nerve entrapments, radiculopathies, broken fusions, poor recovery after laminectomy, and pain for which there is no diagnosis."
3. The Respondent holds privileges at the Johns Hopkins Hospital in Baltimore, Maryland.

I. PROCEDURAL BACKGROUND

4. On or about May 16, 2005, the Board received a report from a physician located in North Carolina alleging that a former patient of the Respondent, who wished to remain anonymous, had expressed concerns to the physician regarding the Respondent's practice. According to the complaining physician, the patient alleged that the Respondent dispensed Dilaudid (a Schedule II Controlled Dangerous Substance ("CDS")) to patients without counting them and on at least one occasion took Dilaudid from the stock bottle for himself. The patient further alleged that she had observed the Respondent to be intoxicated on several occasions.

5. Upon receipt of the complaint, the Board initiated an investigation of the Respondent, including an unannounced inspection of Mensana, the results of which are set forth below.

II. INVESTIGATIVE FINDINGS

a. Patient-Specific Investigative Findings

i. Patient A²

6. Board staff reviewed the Respondent's Johns Hopkins Hospital Quality Assurance/Risk Management File. Contained in the file was an allegation that the Respondent had inflicted physical violence upon a patient ("Patient A") on July 4, 2004, during the course of their concurrent personal relationship.
7. The Respondent's records indicate that he treated Patient A at the Mensana Clinic from November 1999 through July 16, 2004.
8. Board staff interviewed Patient A. She reported that the Respondent and Patient A commenced a personal/sexual relationship, including sexual intercourse, in or around January 2000. Patient A reported that the Respondent initiated sexual advances shortly after she had commenced treatment. At the Respondent's request, Patient A kissed him and provided him with oral sex in his office on several occasions.
9. When interviewed by Board staff, the Respondent admitted to Board staff that he had had a sexual relationship with Patient A.

² The names of the patients are confidential. The Respondent may obtain the names from the Administrative Prosecutor.

10. On or about November 19, 2001, the Respondent employed Patient A at Mensana. Effective December 4, 2002, the Respondent named Patient A as the Chief Executive Officer of Mensana.
11. The Respondent cohabited with Patient A from March 20, 2003 to July 4, 2004.
12. Patient A alleged that the Respondent became physically abusive to her on several occasions during their personal relationship. On July 4, 2004, Baltimore City Police responded to a domestic violence call at the Baltimore Waterfront Marriott Hotel. Patient A reported that the Respondent had shoved her up against the wall of the room the Respondent had rented and choked her. The Respondent then left the scene.
13. Effective July 21, 2004, Patient A resigned her employment at the Mensana Clinic.

ii. Patient B

14. On or about December 1, 2005, Board staff received a report from the U.S. Department of Justice – Drug Enforcement Administration (“DEA”) regarding a complaint that agency had received from a former patient of the Respondent (“Patient B”).
15. Patient B had initially contacted DEA to inquire about the legality of a physician re-dispensing prescription medications to patients that had been previously prescribed to other patients.

16. Patient B reported to DEA that she had been treated by the Respondent at Mensana from 1999 for chronic pain.³ Her treatment consisted, in part, of Lidocaine⁴ injections.
17. Patient B further reported the Respondent frequently re-dispensed medications he had collected from patients. The Respondent prescribed Soma⁵ to Patient B on her first visit, but the pharmacy was unable to fill the prescription. Patient B became upset and telephoned the Respondent who told her to return to Mensana. When she arrived at Mensana, the Respondent gave her a full prescription bottle of Soma that had been prescribed to another patient. The Respondent marked out the patient's name on the label.
18. Patient B stated that her initial impression of the Respondent was positive; however, he soon began to act in a flirtatious manner with her and initiated suggestive or graphic sexual conversations with her.
19. In or around February 2002, the Respondent administered a trigger point injection to Patient B near her panty line. As Patient B was leaving the office, the Respondent stood in front of her, preventing her from leaving, placed one hand on her hip, the other on her breast and kissed her.
20. During the summer of 2002, the Respondent pressured Patient B for sexual favors, stating that her health insurance was insufficient to compensate him for his services. To continue receiving trigger point

³ In furtherance of its investigation, Board staff subpoenaed Patient B's records from Mensana. The records reveal that Patient B was treated by the Respondent from December 1998 through August 30, 2005, at frequencies varying from once a month to three times a week.

⁴ Lidocaine is a local anesthetic.

⁵ Soma is a non-narcotic analgesic.

injections and medications, Patient B provided oral sex to the Respondent on more than one occasion and masturbated in his presence on several occasions, all at the Respondent's request. When administering injections, the Respondent would press his crotch against her body and become aroused.

21. Patient B reported that in or around September 2004, the Respondent opened his desk drawer and dumped a handful of Hydrocodone⁶ tablets in her hand. On another occasion, the Respondent took an empty Lidocaine syringe wrapper from the trash can, filled it with Hydrocodone or Oxycodone⁷ tablets and gave it to Patient B stating that now she had her "own personal pill bottle."
22. During the course of Patient B's treatment, the Respondent gave to her a very large quantity of medications, including CDS, that had been prescribed to other patients.

iii. Patient C

23. In furtherance of its investigation, Board staff interviewed Patient C, who had filed a complaint with the Board against the Respondent alleging sexual abuse and improper administration of medications. Patient C is a female who was treated by the Respondent for chronic pain from September 1994 until April 30, 2001. Patient C was treated by the Respondent approximately three times a week with nerve block injections.

⁶ Hydrocodone, an opioid analgesic, is a Schedule III CDS.

⁷ Oxycodone, an opioid analgesic, is a Schedule II CDS.

24. Patient C described the Respondent's office as dark and dirty. Situated in plain view and easy access was a large open cardboard box filled with medications, including CDS, that had been prescribed to other patients.
25. The Respondent typically treated Patient C at the end of the day. The Respondent locked his office door while he treated her.
26. As Patient C's treatment continued, the Respondent drew physically closer to her as he administered her injections. The Respondent eventually began kissing Patient C and rubbing his crotch against her knee, becoming sexually aroused. The Respondent would then go into the bathroom that adjoins his office, where he would stay for approximately five minutes. During this time, Patient C was alone in the Respondent's office and would take medications from the cardboard box, including Oxycontin,⁸ Soma, Valium,⁹ Percocet¹⁰ and Oxycodone.
27. Patient C subsequently terminated the physician/patient relationship.

III. Board's Inspection of Mensana

28. On January 19, 2006, at approximately 9:05 a.m., Board staff commenced an unannounced site visit of the Mensana Clinic.¹¹ Board staff was accompanied by detectives with the Baltimore County Police Vice/Narcotics Squad.
29. The Respondent agreed to cooperate with the Board inspection and with the Board subpoenas that were issued during the inspection that directed

⁸ Oxycontin is a Schedule II CDS opioid agonist.

⁹ Valium, a benzodiazepine, is a Schedule IV CDS.

¹⁰ Percocet, an opioid analgesic containing Oxycodone, is a Schedule II CDS.

¹¹ Pursuant the Maryland Medical Practice Act, the Board's duly authorized agents may enter at any reasonable hour a place of business of a licensed physician. H.O. § 14-206(d).

him to produce documents including, but not limited to, patient medical records and employee files.

a. Drugs

30. Dozens of bottles of prescription medications, including CDS, were immediately observed in plain view in the Respondent's office and in a room adjoining his office. The police contacted the DEA Drug Diversion Unit requesting assistance for identification of the drugs.
31. Upon their arrival at Mensana at approximately 11:25 a.m., DEA agents issued to the Respondent a Notice of Inspection and interviewed the Respondent.¹² The Respondent initially stated that he keeps his patients' prescription drugs to discourage them from diverting their CDS. He later stated that he redistributes previously prescribed Schedule III and IV CDS to patients other than those to whom the drugs were originally prescribed, but does not redistribute Schedule II CDS.
32. The Respondent stated that he was unaware that it was illegal to possess returned CDS and dispense them to other patients. The Respondent told Board staff that he was "playing Robin Hood" in order to help patients who did not have insurance or who could not afford to pay for medication.
33. The Respondent was informed that as a dispensing physician, he is required by Federal regulation to maintain records of dispensing and biennial inventory. 21 CFR 1304.3(d) and 21 CFR 1304.11 (c). State law

¹² The Respondent consented to the DEA administrative inspection without an administrative search warrant.

also requires a physician to obtain a dispensing permit in order to dispense prescription drugs. H.O. § 12-102(c)(i)(2).

34. The Respondent stated that he did not maintain the required records, nor did he have a dispensing permit.¹³
35. The Respondent further stated that he does not have a security system in his office and does not regularly lock or otherwise secure CDS in his office as required by Federal regulation. 21 CFR 1301.71. He reported that there have been incidents of theft of prescription drugs from his office.
36. The Respondent confirmed that he treats patients in his office, including administering trigger point injections. The Respondent stated that he often leaves patients alone in his office.
37. The Respondent surrendered to DEA agents his DEA Certificate of Registration.
38. Baltimore County police seized a total of 360 bottles of prescription drugs, computer equipment and a total of three firearms, *infra*.
39. The police inventory reveals that the drugs had been originally prescribed to over 160 different patients; over 5,800 tablets of CDS, the vast majority of which were Schedule II CDS including morphine, Dilaudid, MS Contin, Methadone, Demerol and Oxycontin, were among the prescription drugs seized.

¹³ During the inspection, Board staff issued to the Respondent a subpoena that directed him to deliver immediately upon service his original permit to dispense prescription drugs. The Respondent wrote on the subpoena, "I don't have a permit to dispense prescription drugs." The Respondent signed and dated this statement.

40. The Baltimore County Police Department Property Inventory (patient names redacted) is attached hereto as **Attachment A**.
41. Selected photographs taken by Board staff during the January 19, 2006 inspection of the Respondent's office are attached hereto as **Attachment B 1 – 5**.

b. Guns

42. Upon arrival at Mensana, Baltimore County Police Sergeant Robert Gibbons asked the Respondent if he had any weapons on the premises. The Respondent stated that he had only one unloaded rifle in his office, which he used to shoot deer on his property. Sergeant Gibbons removed the unloaded Marlin .22 rifle from the premises.
43. The police obtained a search and seizure warrant and commenced a search of the Mensana premises.¹⁴
44. Notwithstanding the Respondent's assertion that the .22 caliber rifle was the only gun in his office, the police found a loaded .22 caliber Derringer handgun in the unlocked top right hand drawer of the Respondent's desk. The gun was in a leather case that enables an individual to discharge the weapon in a concealed and undetectable manner. Police also found an antique .22 caliber handgun in the unlocked middle right hand drawer of the Respondent's desk. This gun was determined to be in working order. The police seized both guns.

c. Patient Safety Issues

¹⁴ The Respondent was also advised of his *Miranda* rights.

45. During the inspection of Mensana, Board staff observed that the Respondent's office, in which he treats patients, was in disarray with patient records, packaged syringes and medical records haphazardly strewn about. The carpet was stained and dirty and a coat of dust covered most horizontal surfaces. The bathroom that adjoins the Respondent's office contained a toilet, vanity, shower, refrigerator and shelf. The toilet and sink were dirty with brown streaks and marks. The Respondent's failure to maintain his office in a clean and sanitary condition is a violation of Federal Occupational Safety and Health Act ("OSHA"), 29 CFR § 1910.1030(b).
46. Mensana is an in-patient and out-patient facility. Four in-patients were present at Mensana on the date of the inspection.¹⁵ Board staff observed one of the patients, a frail female, walking with difficulty with a cane. There are eight private and semi-private patient rooms located on the second and third floor of the facility. The police became concerned regarding patient safety and requested that the Baltimore County Fire Department ("BCFD") inspect Mensana. Violations that were cited during the BCFD's inspection of January 19, 2006 include, but are not limited, to the following: all fire extinguishers needed to be serviced; the main stairwell connecting all three floors of the premises was not enclosed, providing inadequate egress; no secondary means of egress for a patient room on the second floor; the main electrical box was inadequately enclosed; fire alarms were inadequate as they had not been serviced

¹⁵ Mensana staff advised that the facility treats an average of eight in-patients.

annually, lacked pull stations throughout the facility, were not UL certified and lacked strobe lights.

CONCLUSIONS OF LAW

Based on the foregoing investigative facts, the Board concludes that the public health, safety or welfare imperatively require emergency action in this case, pursuant to Md. State Gov't Code Ann. § 10-266(c)(2)(2004).

ORDER

It is this 6th day of February, 2006, by a majority of the quorum of the Board:

ORDERED that pursuant to the authority vested by Md. State Gov't Code Ann. §10-226(c)(2), the Respondent's license to practice medicine in the State of Maryland be and hereby is **SUMMARILY SUSPENDED**; and be it further

ORDERED that a post-deprivation hearing in accordance with Code Md. Regs. tit. 10, § 32.02.05.B(7) C, D and E on the Summary Suspension has been scheduled for **Wednesday, February 22, 2006 at 11:00 a.m.**, at the Maryland Board of Physicians, 4201 Patterson Avenue, Room 108, Baltimore, Maryland 21215-0095; and be it further

ORDERED that at the conclusion of the **SUMMARY SUSPENSION** hearing held before the Board, the Respondent, if dissatisfied with the result of the hearing, may request within ten (10) days an evidentiary hearing, such hearing to be held within thirty (30) days of the request, before an Administrative Law Judge at the Office of Administrative Hearings, Administrative Law Building, 11101 Gilroy Road, Hunt Valley, Maryland 21031-1301; and be it further

ORDERED that on presentation of this Order, the Respondent **SHALL SURRENDER** to the Board's investigator the following items:

- (1) his original Maryland License D15330;
- (2) his current renewal certificate;
- (3) All controlled dangerous substances in his possession and/or practice;
- (4) All Medical Assistance prescription forms;
- (5) All prescription forms and pads in his possession and/or practice; and
- (6) Any and all prescription pads on which his name and DEA number are imprinted; and be it further

ORDERED that the Respondent shall immediately **SURRENDER** to the Maryland Division of Drug Control, 4201 Patterson Avenue, Baltimore, Maryland his Maryland Controlled Dangerous Substance Registration; and be it further

ORDERED that a copy of this Order of Summary Suspension shall be filed with the Board in accordance with Md. Health Occ. Code Ann. § 14-407; and be it further

ORDERED that this is a Final Order of the Board and, as such, is a PUBLIC DOCUMENT pursuant to Md. State Gov't Code Ann. § 10-611 *et seq.* (2004).
