The parties in this matter agree to the terms and conditions of the attached Stipulation as the final disposition of this matter, subject to the approval of the Medical Examining Board (Board). The Board has reviewed this Stipulation and considers it acceptable.

Accordingly, the Board in this matter adopts the attached Stipulation and makes the following Findings of Fact, Conclusions of Law and Order.

FINDINGS OF FACT

1. Licensee Victoria Fetter, M.D (DOB November 8, 1941), is licensed in the state of Wisconsin to practice medicine and surgery, having license number 16473-20, first issued on August 9, 1968, with registration current through October 31, 2019. Licensee's most recent address on file with the Wisconsin Department of Safety and Professional Services (Department) is 633 W. Wisconsin Avenue, Suite 401, Milwaukee, Wisconsin 53203.

2. Licensee is a psychiatrist. Between 2011 and 2014, she treated Patient A, a male born in 1949. Patient A had various mental health issues but retained the right to make health care decisions for himself throughout the time Licensee treated him.

3. The Division of Legal Services and Compliance (Division) opened case number 15 MED 234 to investigate allegations that Licensee became upset with Patient A when he

brought a family member along to attend an appointment with Licensee without first discussing it with Licensee.<sup>1</sup>

4. While investigating this matter, the Division obtained an authorization allowing Licensee to provide the Division with certified complete medical records of mental health care she provided to Patient A.

5. The records of Patient A's care provided by Licensee were copied on the back of previously used paper, which contained no other patient care information, but included other patient names, dates of birth, social security numbers, dates of service, home addresses, insurance carriers, and a Disability Insurance Benefit Analysis.

6. The Division had not provided Licensee with signed authorizations allowing her to disclose the names and other sensitive information about patients who were not the subject of the Division's investigation.

7. Licensee claims she re-used paper to save money and resources, and that she has vetted the practice with medical ethics professionals who informed her that maintaining records at her office in this manner is allowed.

8. Licensee claims she felt the Division's request for complete certified records compelled her to provide the records exactly as they existed in her file, and that her attorney copied the records in this manner and prepared a certification page for her signature.

9. Licensee has ceased the practice of re-using paper for patient care records.

10. Licensee's treatment records for Patient A reflect contacts between Licensee and Patient A's family members and roommate. During an interview with a Division investigator, Licensee acknowledged these contacts and claimed Patient A authorized them. However, Licensee could not produce signed authorizations, and the records are unclear that Patient A verbally authorized Licensee to discuss Patient A's psychiatric care with family members and a roommate.

11. Patient A was interviewed by the Division and could not recall whether or not he authorized Licensee to communicate with his family members and a roommate. As of 2014, Patient A moved to another state to live near his sister who became his Power of Attorney for Health Care.

12. Licensee has since developed a specific consent form for use when patients ask her to communicate with third parties.

13. In resolution of this matter, Licensee consents to the entry of the following Conclusion of Law and Order.

---

<sup>1</sup> The investigation revealed insufficient evidence to prove unprofessional conduct as defined by the Wisconsin Administrative Code section regarding disruptive behavior by physicians.
