The parties in this matter agree to the terms and conditions of the attached Stipulation as the final disposition of this matter, subject to the approval of the Medical Examining Board (Board). The Board has reviewed this Stipulation and considers it acceptable.

Accordingly, the Board in this matter adopts the attached Stipulation and makes the following Findings of Fact, Conclusion of Law, and Order.

FINDINGS OF FACT

1. Licensee Donna M. Luchetta, M.D., (Year of Birth 1960) is licensed in the state of Wisconsin to practice medicine and surgery, having license number 66939-20, first issued on February 20, 2017 with registration current through October 31, 2023. Licensee's most recent address on file with the Wisconsin Department of Safety and Professional Services (Department) is in Lake in the Hills, Illinois 60156.

2. At all times relevant to this proceeding, Licensee practiced as a psychiatrist at a government facility located in Milwaukee, Wisconsin (Facility).

3. Division of Legal Services and Compliance Case No. 21 MED 309 was commenced to investigate a report that Licensee voluntarily surrendered clinical privileges and agreed to take a voluntary leave of absence from the Facility for a minimum of six weeks.

4. On June 11, 2021, the Facility imposed the following restrictions before Licensee could return to the medical staff following the leave of absence:

- a. that Licensee undergo neuro-cognitive testing; and
- b. that Licensee submit statements from Licensee's treating physicians confirming she does not have any physical deficits that would impact her ability to practice and that she was cognitively safe to practice as a psychiatrist including performance of patient assessments, diagnosis, treatment, and medication management.

5. On August 11, 2021, Licensee underwent a neurological evaluation, which found a normal cognitive profile. The reviewer concluded:

*Overall, the results of this evaluation do not provide any indication that she would be unable to perform the duties of her occupation safely including performance of patient assessments, diagnosis, treatment, and/or medication management.*

6. The Facility also reviewed eight of Licensee's patient charts. While the Facility found Licensee's clinical care appropriate, documentation deficiencies were noted which included failure to adequately document medical decision-making and explain treatment and medication plans of care.

7. In resolution of this matter, Licensee consents to the entry of the following Conclusion of Law and Order.
